

General Science Most Important Questions and Answer

Question-The carbon dating method is used to determine the age of?

Answer - Fossils

Question - Which part of the body is particularly affected by excessive alcohol consumption?

Answer - Liver

Question - Which organ does the work of blood bank in the body?

Answer -Spleen

What is the unit of photosynthesis in green plants called?

Answer - Quantosome

Question - What is the main function of white blood cells in the body?

Answer - To protect the body from diseases.

Question-How many chambers are there in the heart of a fish?

Answer - Two Chambered

Question - Which organ performs the function of separating undesirable substances from the blood in the human body?

Answer - Kidney.

Question - What is the famous 'Apsara' after completing forty years?

Answer - Nuclear reactor

Question - What is the function of Dynamo?

Answer - Production of electrical energy from mechanical energy

Question-Which radioactive element was obtained from pitchblende?

Answer - Radium

Question - What is the reason for the change of color in the skin of a chameleon?

Answer-Due to the presence of innumerable pigment cells called melanophores in his skin

Question-Which is the most abundant organic compound found in nature?

Answer - Cellulose

Question - Why do trees growing on the banks of the sea do not have annual rings?

Answer - Because there is no clear variation in the climate here.

Question - Under which branch of science is the study of old age done?

Answer - Gerontology

Question - Dolomite (CaCO₃) is an ore of?

Answer-Calcium

Question - Which vitamin is found in citrus fruits?

Answer - Vitamin C

Question-What is the instrument used to measure the intensity of sound called?

Answer - Audiometer

Question - By whom does the souring of milk happen?

Answer - By bacteria

Question - In the spectrum of white light, which color is most deviated by the prism?

Answer - Violet

Question - What is the refrigerant in the refrigerator?

Answer - Freon

Question - Which bacteria is helpful in making curd from milk?

Answer-Lacto-bacillus

Question - Dialysis is done when the organ is not functioning?

Answer - Kidney

Question-What is the largest part of the human brain?

Answer - Cerebrum

Question - The shock caused by firing a rifle is an example of protection of

Ans. Conservation of linear momentum

Question-Who is the first scientist to synthesize a gene in the laboratory?

Answer - Hargovind Khurana

Question - What is the reason for the absence of atmosphere on the moon?

Answer - There the root mean square velocity of all gases is greater than their escape velocity.

Question - Which unicellular algae is used for proper supply of food in space?

Answer - Chlorella

Question - Natural rubber is a polymer of which of the following?

Answer - Isoprene

www.linkinglaws.com

Question - What is the fourth state of matter called?

Answer - Plasma

Question - Which instrument is used to measure the alternating current?

Answer - From Hot Wire Ammeter

**Question - Which property of light waves gives evidence of their transverseness?
from north polarization**

Question - Where is the center of gravity of a circular ring?

Answer - The ring at the center of the circle

Question-What is the pH value of human blood?

Answer -7.4

Question - What is a diamond from the point of view of mineral composition?

Answer - Carbon

Question - Who propounded the theory of planetary motion?

Answer - Kopler

Question - On which principle is the hydrogen bomb based?

Answer - On Nuclear Fusion

Question - Who discovered the proton?

Answer - Rutherford

Question - Which substance is found on earth in all three states?

Answer - water

Question - What is the carat in relation to diamond?

Answer - Unit of Weight of diamond

Question - What is the coating on galvanized iron?

Answer - Zinc

Question - On which occasion Science Day is celebrated in India on 28th February?

Answer - To commemorate the day of discovery of Raman Effect by CV Raman

Question - 7th November, 1888 is the birthday of which great scientist of India?

Answer - CV Raman

Question - Iodized salt is used for the prevention of which disease?

Answer - Goitre

Question - What is the function of electric motor?

Answer-Conversion of electrical energy into mechanical energy.

What is the unit of photosynthesis in green plants called?

Answer - FATURTH(Quantasome)

Question-What is the average density of the Earth?

Answer - 5.5 grams/cubic centimeter

Question-The sun always rises in the east, because?

Answer- The earth rotates from west to east.

Question-Which instrument is used to determine the rate of transpiration in plants?
north of potometer

Question - What is the chemical formula of red lead?

Answer -Pb3Oa

Question - In which organ is Vitamin K produced in the human body?

Answer - By bacteria in the colon

Question - What is 'DARK AVENGER'?

Answer - A type of major computer virus

Question - Which branch of science is studied under Phycology?

Answer - Algae

Question - In which vitamin is cobalt found?

Answer - In Vitamin B12

Question - Which part of the body gets affected in a disease called 'meningitis'?

Answer - north brain

Question - The main reason for not forming blood clot in human body is?

Answer - Presence of heparin

Question - By which method is the water in the kettle heated by electricity to make tea?

Answer - By Convection

Question - What is the medical study of the elderly called?

Answer - Geriatrics

Question - The disease called hypoglycemia is caused by the deficiency of which of the following in the blood?

Answer - Glucose

Question - Which disease is spread by a virus called HTLV?

Answer - AIDS

Question - What is the smallest gland in the human body?

north pituitary

Question - What is an enzyme basically?

Answer - Protein

Question - In which part of the body is bile produced?

Answer - In the liver

Question - The theory of black hole was propounded?

Answer - S. Chandrashekhar

Question - What is Cyanocobalamin?

Answer - Vitamin B12

Question - Why Tetra Duethyl Lead (TEL) is added to petrol?

To increase the antiknocking rating (rate of detonation)

Question- Does diamond shine?

Answer - Due to total internal reflection

Question - Relative humidity is measured in?

Answer - From Hygrometer

Question- What is the image formed on the retina?

Answer - Real, inverted and smaller than the object

Question - Who was the first to prepare the polio vaccine?

Answer - Jones Salk

Question - What is the main ingredient of Gobar gas?

Answer - Methane

Question - What is the unit of photosynthesis in green plants called?

Answer - Quantosome

Question - Newton / kg is the unit of which physical quantity?

Answer - Acceleration

Question - A disease called 'Goiter' is caused due to the deficiency of which in the body?

Answer -Due to deficiency of iodine

Question - What is studied in Virology?

Answer - Virus

Question - What is the chemical name of Vitamin C?

Answer - Ascorbic Acid

Question - What is the diastolic blood pressure of a normal person?

Answer - 80 mm of mercury

Question - Which color diverges the most in the spectrum formed by a prism of white light?

Answer - Violet

Question - What is Calomel?

Answer - Mercurous chloride (Hg_2Cl_2)

Question - What is the chemical name of vermilion?

Answer - Mercuric Sulphide (Hgs)

Question - What is called 'Fool's Gold'?

Answer - Iron sulphide or iron pyrites found in nature

Question - Which enzyme is found in pancreatic juice?

Answer - Trypsin enzyme

Question - What is the catalyst in the breakdown of proteins into amino acids in the intestine?

Answer - Pepsin enzyme

Question - What is 'Astro-D'?

Answer - Japanese X-ray satellite to study the evolution of the universe

Question - The pole star is visible at one place in the sky while other stars are not because of this?

The North Pole star is located in the direction of the Earth's axis of rotation.

Question - How many times does a human heart normally beat per minute?

Answer - 72 times

Question - What is measured with an instrument called Sphygmomanometer?

Answer - Blood Pressure
